WHY IS THIS IMPORTANT

The main goal of TRP Kids is for your kids to have a Safe, Spirit-filled and Super Fun experience. For this to happen, we need all kids to be on the same page about how to treat each other. Since we get lots of families with different backgrounds, experiences and parenting styles, the only classroom rules we enforce are those that directly relate to the Values of The Resting Place.

RESPONDING TO MISCONDUCT

"Clubhouse" refers to the K-5th Grade classroom. When kids in this classroom are intentionally not Honoring, Empowering or having Faith for others in the class, this is our Serve Team's trained response

Step 1 - Communication

While in the classroom, take the kids aside and explain how their actions conflicted with one of the Values. Have them apologize and make sure they understand the situation they created.

Step 2 - Redirection

Take the kid outside of the classroom to a quiet space and explain that they have repeated actions conflicting with the values. Ask several open ended questions as to what they have been thinking and guide them towards an Honoring goal. Give them specific instructions on where in class to participate and what to do as a redirection of their space in the room.

Step 3 — Calling Parent and Exiting the Classroom

Contact the Parent and take the kid outside of the classroom to a quiet space. While waiting for the parent, simply be with them, finish the lesson or just go over the BIG IDEA with them. (There is no need to re-explain actions for a 3rd time). Once the parent has arrived, explain to them the repeated actions, their kid cannot return to the TRP Kids room, but that we are excited for them to join us next week.
